FRAGRANCE VERSION

Beautiful skin  
is  
healthy skin

---

## La<sup>®</sup>Squalana

---

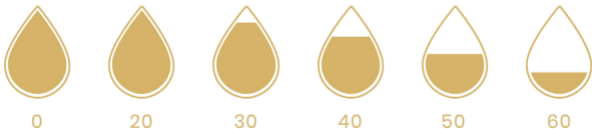

Oil containing squalane with highly effective skin regenerating properties. Squalane is a stable form of squalene - a natural fat physiologically necessary for the skin to properly regenerate and oxygenate. Contrary to synthetic moisturisers, squalane penetrates deep into the skin layers, which results in their natural hydration.

It is intended for all skin types.

---

Squalene levels drop dramatically after the age of 25, so replenishment is essential to maintain the proper functioning of the skin.

## Action

---

The physiological effects of the skin after using La<sup>®</sup>Squalana can be divided into 3 stages:

### **Stage I - 5 days of use**

Moisturises the inner layers of the skin, improves the appearance and visibly smoothes the skin.

---

### **Stage II - 3 weeks of use**

The skin becomes more oxygenated. The outer layers of the skin begin to firm and regenerate.

---

### **Stage III - 2 months of use**

Skin regeneration cycle completed. A noticeable improvement in firmness, the skin becomes velvety smooth, radiant and has an even complexion.

---

## Application

---

Apply La<sup>®</sup>Squalana to the skin with your fingertips, wait for it to be absorbed.

La<sup>®</sup>Squalana oil, when used with everyday cosmetics, will enhance their action.

For oily skin, we recommend removing excess oil after 15 minutes or using it in combination with a light cream.
